#### **Deconcentration Policy**

The objective of the deconcentration policy for public housing units is to ensure that families are housed in a manner that will prevent a concentration of poverty families and/or a concentration of higher income families in any one development. The specific objective of the housing authority is to house no less than 40% of its public housing inventory with families that have income at or below 30% of the median income by public housing development. Also the housing authority will take actions to insure that no individual development has a concentration of higher income families in one or more of the developments. To insure that housing authority does not concentrate families with higher income levels, it is the goal of the housing authority not to house more than 60% of its units in any one development with families whose income exceeds 30% of the area median income. The housing authority will track the status of family income, by development, on a monthly basis by using income reports generated by the housing authority's computer system.

To accomplish the deconcentration goals, the housing authority will take the following actions: **A:** At the beginning of the housing authority fiscal year, the housing authority will establish a goal for housing 40% of its new admissions with families whose incomes are at or below the area median income. The annual goal will be calculated by taking 40% of the total number of move-ins from the previous housing authority fiscal year. **B:** To accomplish the goals of: (1) housing not less than 40% of its public housing inventory of an annual basis with families that have incomes at or below 30% of area median income, and (2) not housing families with incomes that exceed 30% of the area median income in developments that have 60% or more of the total households living in the development with incomes that exceed 30% of the area median income, the housing authority's Tenant Selection and Assignment Plan, which is part of this policy, provides for skipping families on the waiting list to accomplish these goals.
